

Curriculum Vitae

Susan Michelle Rivera

Professional Address:

University of California, Davis
Center for Mind and Brain
267 Cousteau Place
Davis, CA 95618
Phone: (530) 747-3802
e-mail: srivera@ucdavis.edu
Website: <http://mindbrain.ucdavis.edu/labs/Rivera/>

Education

Ph.D., Developmental Psychology, University of California, Berkeley, CA, December, 1998.
BA, Psychology, Indiana University, Bloomington, IN, 1991.

Positions Held

2017-present Chair, Department of Psychology, UC Davis
2011-present Full Professor, Department of Psychology, UC Davis
2008-2011 Associate Professor, with tenure Department of Psychology, UC Davis
2001-2008 Assistant Professor, Department of Psychology, University of California at Davis
1999-2001 Postdoctoral Research Fellow, Stanford Psychiatry Neuroimaging Lab, working with Professor Allan Reiss
1998-1999 Postdoctoral Research Fellow, Center for Developmental Cognitive Neuroscience, working with Dr. Adele Diamond

Honors, Fellowships and Awards

2016 Dean's Award for Diversity, Inclusion and Equity
2015 UC Davis Diversity and Principles of Community Faculty Citation Award
2014 Marie Curie Scholar, Birkbeck, University of London
2010 Recipient of UC Davis School of Medicine Dean's Award for Excellence in Collaboration
2010-2012 M.I.N.D. Institute Pilot Research Grant Award Recipient
2005-2006 M.I.N.D. Institute Pilot Research Grant Award Recipient
2005-2006 Grant to Promote Extra-Mural Funding, U.C. Davis
2003-2004 Faculty Research Grant Recipient, U.C. Davis
2003-2004 M.I.N.D. Institute Faculty Pilot Grant Award Recipient
2001-2002 IGA Junior Faculty Research Award
2000-2001 National Institute of Health Postdoctoral Training Fellowship
1998-1999 National Institute of Health Postdoctoral Research Fellowship
1998 Outstanding Graduate Student Instructor Award, U.C. Berkeley
1997-1998 American Psychological Association Dissertation Research Award
1996-1997 Graduate Division Dissertation Award Fellowship, U.C., Berkeley
1995-1996 National Research Service Award, National Institute of Mental Health
1992-1995 National Science Foundation Graduate Research Fellowship

Professional Memberships

Cognitive Neuroscience Society	International Society for Developmental Psychobiology
Cognitive Development Society	Jean Piaget Society
International Society on Infant Studies	Society for Neuroscience
International Society for Autism Research	Society for Research in Child Development

Panels and Advisory Positions

Associate Editor: Frontiers in Developmental Psychology

Editorial Board Member: Human Development
Journal of Neurodevelopmental Disorders

Ad-hoc journal reviewer (*partial list*):

Archives of General Psychiatry	Developmental Psychology
Autism Research	Development and Psychopathology
Biological Psychiatry	Developmental Science
Brain	Frontiers in Human Neuroscience
Brain Research	Human Development
Child Development	Infancy
Cognitive Development	Journal of Neuroscience
Child Psychology and Psychiatry	Neuroimage
Developmental & Behavioral Pediatrics	

Executive Board Member:
Jean Piaget Society (2011-present)

Grant Panel Reviewer:

NIH Study Section Member (CP), 2013-2017.
National Science Foundation, Cognitive Neuroscience program panel reviewer: 2003, 2009, 2010, 2011
Ongoing Ad-hoc grant reviewer for National Science Foundation
Ongoing Ad-hoc grant reviewer for Autism Speaks
Ongoing Ad-hoc reviewer for National Institutes of Health (NIMH, NICHD)

Invited Talks and Addresses

Rivera, S.M. Neuroimaging and Eye Tracking Biomarkers for Understanding Symptom Trajectories in Developmental Disorders. Invited Plenary Address at the Gatlinburg Conference on Research and Theory in Intellectual and Developmental Disabilities, San Diego, CA, April, 2018.

Rivera, S.M. Visual attention as a window into understanding brain development in autism and fragile X syndrome. Invited talk at the Simons Center for the Social Brain, MIT. October 25, 2017.

Rivera, S.M. A tale of two academies: Experiences of underrepresented faculty. Invited SRCD Salon panelist at the Society for Research in Child Development biennial meeting, Austin, TX, April, 2017.

Rivera, S.M. Eye movements as window into brain development in typically and atypically developing children. Invited address at the International Congress of Infant Studies, New Orleans, LA, May 26-28, 2016.

Rivera, S.M. Gene-brain relationships in the fragile X spectrum of involvement. Invited talk at the Experimental Neuropsychology and Cognition Research Center, University of Montréal, January 22, 2016.

Rivera, S.M. Gene-brain relationships in the fragile X spectrum of involvement: Evidence from infancy to old age. Invited talk at the Sackler Institute, NYU School of Medicine. March 6, 2014.

Rivera, S.M. The fragile X spectrum of involvement: Gene-brain interactions across the lifespan. Talk given at Birkbeck, University of London as **Marie Curie Visiting Scholar**. January 15, 2014.

Rivera, S.M. Gene-brain-behavior relationships in disorders affecting numerical cognition. Invited workshop (faculty) at the Summer Institute in Cognitive Neuroscience, U.C. Santa Barbara, July 6, 2011.

Rivera, S.M. Investigating gene-brain relationships across the lifespan in the fragile X spectrum of disorders. Invited talk at U.C. Berkeley, March 10, 2011.

Rivera, S.M. Alterations in a fronto-parietal circuit may underlie many of the observed cognitive deficits seen across the fragile X spectrum. Invited Talk at Brandeis University, January 20, 2011.

Rivera, S.M. An overview of the U.C. Davis M.I.N.D. institute and review of ongoing research studies in autism and fragile X syndrome. Invited keynote address at the International Conference of Autism, Skive, Denmark, November 12-13, 2010.

Rivera, S.M. Early visual processing deficits in fragile X and autism. Invited talk at the Summer Institute on Neural Developmental Disorders, Sacramento, CA, August 6, 2010.

Rivera, S.M. Number processing in typical and atypical development. Invited talk at the Conference on Neurocognitive Development, Berkeley, CA, July 12-14, 2009.

Rivera, S.M. Neuroimaging of "spectrum disorders": Autism and fragile X syndrome. Invited Keynote address for the Imaging Research Center Fall Carnival, Davis, CA, Sept. 16, 2008.

Rivera, S.M. Neuroanatomical approaches to the study of math ability and disability. Invited talk at the Learning and the Brain Conference, San Francisco, CA, February 6-9, 2008.

Rivera, S.M. Eye tracking and baby studies: Investigations in fragile X syndrome. Invited symposium lecture at the 10th International Society for the Study of Behavioural Phenotypes Meeting, Sacramento, CA, October, 2007.

Rivera, S.M. The neural bases of quantitative reasoning: Insights from typical and atypical development. Invited talk at the American Educational Research Association Meeting, April 7-11, 2006.

Rivera, S.M. Functional neuroarchitecture of the autistic brain. Invited talk at the Summer Institute on Neurodevelopmental Disorders, August 4-5, 2005.

Rivera, S.M., David, N., Barcellos, T., Henry, M.L. and Hagerman, R.J. Effects of the fragile X-associated tremor ataxia syndrome on cerebellar functioning: An fMRI study. Invited Symposium talk: 9th International Fragile X Conference, Washington, DC, June, 2004.

Rivera, S.M. Cerebellar dysfunction in older males with the fragile X premutation: An fMRI investigation. Invited symposium talk: 8th International Fragile X Conference, Chicago, IL, July 17-21, 2002.

Recent Conference Presentations

Burris, J.L., Oleas, D.S., and **Rivera, S.M.** (2018) Attentional biases towards emotion in young children with Autism Spectrum Disorder. Poster presented at the 51st Annual Gatlinburg Conference, San Diego, CA, April, 2018.

Dwyer, P., Burris, J.L., Bussey, T.R., and **Rivera, S.M.** (2018). Using eye tracking to examine the receptive vocabulary of young children on the autism spectrum. Poster presented at the 51st Annual Gatlinburg Conference, San Diego, CA, April, 2018.

Fourie, E. Shelton, A., Hessel, D., and **Rivera, S.M.** (2018). Amygdala Activity as a Predictor of fragile X-associated Tremor/ataxia Syndrome. Poster presented at the Cognitive Neuroscience Society Annual Meeting, Boston, MA, March, 2018.

Yoo, K.H., Burris, J.L., Gaul, K.N., Bussey, T., Hagerman, R.J., and **Rivera, S.M.** (2017) Using eye tracking to assess the effect of sertraline on language ability in children with fragile X syndrome. Poster presented at the 47th Annual Meeting of the Jean Piaget Society, San Francisco, CA, May, 2017.

Chernenok, M., Burris, J.L., and **Rivera, S.M.** (2017). Autism, Anxiety and the Role of Gene Expression in Female Children and Adolescents with fragile X Syndrome. Poster presented at the International Meeting for Autism Research, San Francisco, CA, May, 2017.

Burris, J.L., Barry, R.A., and **Rivera, S.M.** (2017) A longitudinal eye tracking investigation of attentional biases towards threat and their link to anxiety symptoms in early childhood. Poster presented at the Society for Research in Child Development biennial meeting, Austin, TX, April, 2017.

Burris, J.L., Barry, R.A., and **Rivera, S.M.** (2017). An eye tracking investigation of young children's use of emotional gaze cues and its link to attentional biases to threat. Poster presented at the Society for Research in Child Development biennial meeting, Austin, TX, April, 2017.

Sims, R.N., Burris, J.L., and **Rivera, S.M.** (2017). An eye tracking investigation of attention shifting between central and peripheral faces. Poster presented at the Society for Research in Child Development biennial meeting, Austin, TX, April 2017.

Barry, R.A., Burris, J.L., Graf Estes, K., and **Rivera, S.M.** (2017). The developmental trajectory of responding to conflicting gaze and language cues. Poster presented at the Society for Research in Child Development biennial meeting, Austin, TX, April, 2017.

Burris, J.L. and **Rivera, S.M.** (2016). A longitudinal eye tracking investigation of attentional biases towards threat in early childhood. Brief oral presentation presented at the International Society for Developmental Psychobiology, San Diego, CA, November, 2016.

Sims, R., Burris, J.L., and **Rivera, S.M.** (2016) Attentional biases towards emotional male and female faces in early childhood. Poster presented at the International Society for Developmental Psychobiology, San Diego, CA, November, 2016.

Barry, R.A., Burris, J.L., and **Rivera, S.M.** (2016). An eyetracking investigation of infants use of emotional gaze cues. Presented at the International Congress of Infant Studies, New Orleans, LA, May 26-28, 2016.

Barry, R.A., Graf-Estes, K., and **Rivera, S.M.** (2016). Mechanisms of selective learning in toddlers. Presented at the International Congress of Infant Studies, New Orleans, LA, May 26-28, 2016.

Burris, J.L. and **Rivera, S.M.** (2016). An eyetracking investigation of attentional biases towards threatening and happy faces. Presented at the International Congress of Infant Studies, New Orleans, LA, May 26-28, 2016.

Burris, J.L. and **Rivera, S.M.** (2015). An eye tracking account of developmental changes in attentional behavior towards threat in young children with fragile X syndrome. Talk presented at the 45th Annual Meeting of the Jean Piaget Society, Toronto, June, 2015.

Barry, R. and **Rivera, S.M.** (2015). Social attention and gaze-following: Factors that impact attention and learning. Symposium talk: Society for Research in Child Development biennial meeting, Philadelphia, PA, March, 2015.

Burris, J.L. and **Rivera, S.M.** (2015) Attentional biases towards threat in toddlers and young children with fragile X syndrome. Talk presented at the Society for Research in Child Development biennial meeting, Philadelphia, PA, March, 2015.

Burris, J.L., Tucci, J., McCurley, T., Raphael, S., McGee, B., and **Rivera, S.M.** (2015) The developmental trajectory of attentional biases to emotional male and female faces across the first two years of life. Presented at the Biennial Meeting of the Society of Research in Child Development, Philadelphia, PA, March, 2015.

Gaul, K., Burris, J.L., Halket, E., **Rivera, S.M.** (2015) Strengths and weaknesses in visuospatial processing and its relationship to autism symptomology in young boys with fragile X syndrome. Poster presented at the Biennial Meeting of Society for Research in Child Development, Philadelphia, PA, March, 2015.

Rivera, S.M. (2014) The effect of sertraline on language development in FXS using a passive-viewing eyetracking task. Talk presented at the 14th International Fragile X Conference, Orange County, CA, July, 2014.

Sievers, E. & **Rivera, S.M.** (2014) Brain activation to social evaluation using an implicit trust task in fragile X premutation carriers. Talk presented at the 14th International Fragile X Conference, Orange County, CA, July, 2014.

Owen, E. & **Rivera, S.M.** (2014). Numerical processing in FXS: An attention-shifting analysis. Talk presented at the 14th International Fragile X Conference, Orange County, CA, July, 2014.

Rivera, S.M. (2014). Visual attention in infants and toddlers with fragile X: Eye-tracking evidence for “when pathway” disruption. Talk presented at the XIX Biennial International Conference on Infant Studies, Berlin, Germany, July, 2014.

Rivera, S.M. (2013) Evidence of a dose response of the FMR1 gene in parietal and limbic brain circuits of fragile X premutation carriers. Talk presented at the First International Conference on FMR1 Premutation: Basic Mechanisms and Clinical Involvement, Perugia, Italy, July 2013.

Rivera, S.M. (2013) Visual motion processing deficits in infants with the fragile X premutation. Talk presented at the First International Conference on FMR1 Premutation: Basic Mechanisms and Clinical Involvement, Perugia, Italy, July 2013.

I Wang, J-Y., Hessel D., Schneider, A., Tassone, F., Hagerman, R.J. and **Rivera, S.M.** (2013). Influence of the FMR1 gene on motor fiber tracts in males with normal and premutation alleles. Talk presented at the First International Conference on FMR1 Premutation: Basic Mechanisms and Clinical Involvement, Perugia, Italy, July 2013.

Schneider A., Muzar Z., Summers S., Tassone F., Seritan A., **Rivera S.M.**, Grigsby J., Hessel D., and Hagerman R. (2013). Female characteristics of fragile X-associated tremor/ataxia syndrome. Talk presented at the First International Conference on FMR1 Premutation: Basic Mechanisms and Clinical Involvement, Perugia, Italy, July 2013.

Bailey, D.B., Berry-Kravis, E., De Sonia, A., Famula, J., Gane, L., Guarda, S., Hagerman, R., Hoffend, C., Lo J., Powell, C., **Rivera, S.M.**, Prescott, C., Roche, M., Rohde, S., Skinner, D., Sorenson, P., Tassone, F., and Wheeler, A. (2013). The fragile X newborn screening pilot study: Lessons learned from the detection of FMR1 premutation carrier infants. Talk presented at the First International Conference on FMR1 Premutation: Basic Mechanisms and Clinical Involvement, Perugia, Italy, July 2013.

Bailey D.B., Wheeler A., Hoffend C., Prescott C., De Sonia A., Berry-Kravis E., Sorenson P., **Rivera S.M.**, Hagerman R., and Tassone F. (2013). Early development and behavior of FMR1 premutation infants identified by newborn screening. Talk presented at the First International Conference on FMR1 Premutation: Basic Mechanisms and Clinical Involvement, Perugia, Italy, July 2013.

NIH/NINDS \$3,863,000 *total direct*

Trajectories and Markers of Neurodegeneration in Fragile X Premutation Carriers

Carriers of the fragile X premutation are at increased risk for developing a late-onset neurological disease, Fragile X-Associated Tremor Ataxia Syndrome (FXTAS). This study follows a group of men with the fragile X premutation and healthy controls in a longitudinal study to examine the trajectory of change in brain structures, neuropsychological and neurological functioning, and genetic markers in an effort to determine factors explaining the early disease process that will occur in some of these men, and to develop sensitive measures for tracking response to intervention in future studies.

NIH/NICHD \$8,317,840 *total direct*

Center for the Development of Phenotype-Based Treatments of Autism Spectrum Disorder

This Autism Center for Excellence grant aims to discover effective treatments for subgroups of children with ASD. The Center starts from the premise that one treatment will not fit all children with ASD. If clinically meaningful subgroups can be identified on the basis of behavioral, biological or genetic features, treatments targeted to the characteristics of the subgroup will undoubtedly be more effective. The Center's relevance to public health is evident as the behavioral and biological diagnostic information gathered will inform the most effective treatment decisions and greatest reduction of disability for individuals with ASD.

Trajectories and Markers of Neurodegeneration in Fragile X Premutation Carriers-Supplement

This supplement to the parent R01 supports the development of protocols to apply automatic segmentation techniques for brain segmentation that have shown enormous promise for elucidating changes in brain morphology that may start in young premutation carriers many years before the clinical manifestations of FXTAS. The development of these techniques will greatly increase the value of the findings from the parent grant by allowing us to detect even more subtle changes in brain morphology than would have been picked up by methods originally proposed.

Role: PI

HRD 1209325 (Katehi, L) 9/1/2012-8/31/2018
NSF ADVANCE Institutional Transformation \$3,575,000 *total direct*
Institutional transformation to build and sustain a diverse community of innovative STEM scholars.

The UC Davis ADVANCE program utilizes a four-pronged approach to increasing the participation and advancement of women in the STEM fields. This approach includes: establishment of a Center for Advancing Multi-Cultural Perspectives on Science (CAMPOS), implementation of programs to reduce the impact of unconscious bias, empowerment of STEM women faculty, and a rigorous social science research and evaluation program that is designed to both inform and assess the innovative approach being utilized to create and sustain an inclusive STEM environment.
